

LITHIUM IONIC RETAINS INTEGRAL WEALTH AS MARKET MAKER

TORONTO, ON, June 30, 2022 – Lithium Ionic Corp. (TSXV: LTH) (“**Lithium Ionic**” or the “**Company**”) has retained Integral Wealth Securities Limited (“**Integral**”) to provide market-making services in accordance with TSX Venture Exchange policies. Integral will trade shares of the Company on the TSX Venture to maintain an orderly market, improve the liquidity of the Company's shares and provide the Company with market intelligence.

In consideration of the services provided by Integral, the Company will pay Integral a cash fee of \$6,000 per month for a minimum period of three (3) months. After the three (3) months, the agreement may be terminated by the Company at any time upon 30 days' written notice. The Company and Integral are unrelated entities.

Integral has no present, direct or indirect interest in the Company or its securities. There are no performance factors in the agreement, and Integral will not receive shares or options as compensation. Integral is a member of the Investment Industry Regulatory Organization of Canada (“IIROC”). Accordingly, Integral can access all Canadian Stock Exchanges and Alternative Trading Systems.

About Lithium Ionic Corp.

Lithium Ionic is a publicly-traded company which owns a 100% ownership interest in the Itinga lithium project in Brazil (the “**Itinga Project**” or the “**Project**”).

The Itinga Project is located in Minas Gerais State (MG), Brazil. The Project comprises five mineral licenses covering more than 1,300 hectares in the prolific Aracuai lithium province. A portion of the Project occurs immediately south of the CBL lithium mine and plant, Brazil’s only lithium producer, and immediately north of the large Barreiro and Xuxa lithium deposits of Sigma Lithium Corp (TSXV: SGML) (NASDAQ: SGML).

The Project area has excellent infrastructure, including access to hydroelectrical grid power, water, a commercial port, highways and communities. Lithium mineralization (spodumene, lepidolite, petalite) occurs within a halo of pegmatite dikes and apophyses that occur within the rocks surrounding Neoproterozoic granitic intrusions. Mineralization within the mineralized province and the distribution of the mineralized pegmatites is controlled by a complex and crosscutting system of northeast and northwest oriented faults that were exploited by the dikes. Mineralized structures have been identified in two areas within the Project and the remainder of the Project area remains to be explored.

Cautionary Note Regarding Forward-Looking Statements

This press release contains statements that constitute “forward-statements.” Such forward looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company’s actual results, performance or achievements, or developments to differ materially from the anticipated results, performance or achievements expressed or implied by such forward-looking statements. Although the Company believes, in light of the experience of its officers and directors, current conditions and expected future developments and other factors that have been considered appropriate that the expectations reflected in this forward-looking information are reasonable, undue reliance should not be placed on them because the Company can give no assurance that they will prove to be correct. When used in this press release, the words “estimate”, “project”, “belief”, “anticipate”, “intend”, “expect”, “plan”, “predict”, “may” or “should” and the negative of these words or such variations thereon or comparable terminology are intended to identify forward-looking statements and information. The forward-looking statements and information in this press release include information relating to the services provided by Integral, the trading of the Company’s shares and the Company’s future plans. Such statements and information reflect the current view of the Company. Risks and uncertainties that may cause actual results to differ materially from those contemplated in those forward-looking statements and information. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking information contained in this news release represents the expectations of the Company as of the date of this news release and, accordingly, is subject to change after such date. Readers should not place undue importance on forward-looking information and should not rely upon this information as of any other date. The Company undertakes no obligation to update these forward-looking statements in the event that management’s beliefs, estimates or opinions, or other factors, should change.

Neither the TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this press release.
